Bel Air, CA. 90077

Dear Kiki:

As I complete my term as President of WICT (Women In Cable & Telecommunications), I wanted to thank you and "Hot Tamales Live" for truly bringing women to the forefront of the entertainment industry. WICT's mission and goal is to develop women leaders that transform our industry. "Hot Tamales Live" has opened the doors for women as well as women of diversity. The show has and will continue to transform the entertainment industry and open more doors for women. As a not-for-profit organization, "Hot Tamales Live" has accomplished the mission and goal of WICT.

Being a sponsor of your show "Hot Tamales Live" was a truly rewarding experience for our organization. We were able to share with your show our vision to showcase female talent in our industry. The shows were so well produced and executed that we took great pride in our association with your project.

We received accolades and praises from our members who came to your shows. The LEA Awards' performance was stellar. It was a sold-out performance at 300+ people that left people standing. Our industry professionals found "Hot Tamales Live" riveting, highly enjoyable and remarkably hilarious. It's great what "Hot Tamales Live" has accomplished and is continuing to do so. We thank you for your focus to move women talent forward and serving our industry with much needed diversity while proving that we can all laugh together at the very things that tend to keep us apart.

Congratulations on your success with "Hot Tamales Live" and be assured that we will always be here to support your future efforts.

Sincerely,

Lillian Casares
President
Women In Cable & Telecommunication
Southern California Chapter

Empowering women through leadership, networking and advocacy.
